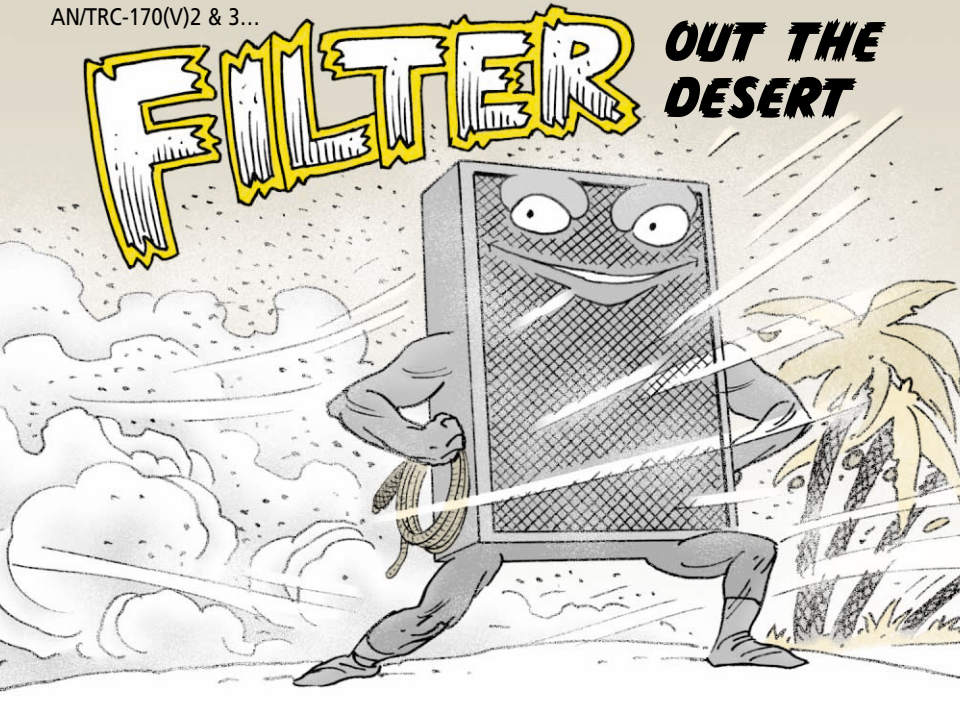
FILTER OUT THE DESERT



Your radio terminal set AN/TRC-170 (V)2 or 3 needs a strong defense against desert sand. Part of that defense is having on hand a good supply of air and gas particle filters. But some of the filters in TM 11-5820-934-23P-1 and -2 have changed NSNs.

Filter	NSN	
Air element (V)2	4130-01-519-1181	(replaces Item 78, Fig 4, TM P-1)
Air element (V)2 & 3	4130-01-519-1183	(replaces Item 85 & 87, Fig 4, TM P-1) (replaces Item 4, Fig 4, TM P-2)
Air element (V)2 & 3	4130-01-519-1185	(replaces Item 69, Fig 4, TM P-1) (replaces Item 84, Fig 3, TM P-2)
Gas particle set (V)2	4240-01-519-1188	(brings filters -1181, -1183, & -1185)
Air element (V)3	4130-01-519-0920	(replaces Item 9, Fig 4, TM P-2)
Gas particle set (V)3	4240-01-519-1189	(brings filters -1183, -1185 & -0920)
