ONLINE DRIVER'S COURSE FILLS NEED

Military and civilian drivers of Army vehicles must complete the online Accident Avoidance Course through the Army Learning Management System.

The course fulfills the requirement under ARs 385-55 and 600-55 for each driver to receive refresher training every four years.

The course teaches awareness skills and motivates drivers to reduce accidents and improve Army readiness.

The course takes just 90 minutes and is a worthwhile refresher.

To take the course, log on to the Combat Readiness University:
