Be Accountable with ULCANS

The ultra-lightweight camouflage net system (ULCANS) is not a throw-away item. It's like your rifle or your protective mask. You are accountable for it on your property books.

When you dispose of an ULCANS that is damaged or not needed, you must do so using normal DLA Disposition Services. The Army has found ULCANS for sale on commercial sites like eBay®. Not a good move. If you are caught selling ULCANS, you can be prosecuted.
