Power Cable Lengths

Dear Half-Mast,
Would you happen to have an NSN list for different lengths of the ***CX-13303/VRC power cables*** used with our vehicular radio sets?

Mr. G.L.H.

Cables come in a variety of sizes

Dear Mr. G.L.H.,
I'll go you one better, Sir. Not only will I list the CX-13303/VRC cable lengths and NSNs, I'll also list the SINCGARS vehicular radios and their installation kits. They're all in this table:

Cable length in feet	Cable NSN 5995-01-	Used with SINCGARS Radio	Installation Kit	Installation Kit NSN 5895-01-
15	219-4696	AN/VRC-87/88/90 AN/VRC-89/91/92	MK-2493/VRC	216-9745
12	300-9321	AN/VRC-92	MK-2388/VRC	309-4604
7	291-1130	AN/VRC-89/91/92	MK-2834/VRC	423-7006
7	291-1130	AN/VRC-87/88/90	MK-2852/VRC	431-3287
4 1/2	300-9324	AN/VRC-92	MK-2839/VRC	421-4160
4 1/2	300-9324	AN/VRC-91/92	MK-2914/VRC	486-6044
4	242-6504	AN/VRC-89/91	MK-2406/VRC	227-5840

Don't settle for just a few tidbits. Get the whole story. Read SB 11-131-2, Vehicular Radio Sets and Authorized Installations Volume II: SINCGARS, FHMUX, AND EPLRS.

The SB has information about SINCGARS vehicular configurations, installation kits (IK), components of the kits and the technical bulletins detailing installation of the IKs.

You'll find the SB on the USAMC Logistics Support Activity (LOGSA) Electronic Technical Manuals (ETM) Online website:
https://www.logsa.army.mil/etms/online.cfm
