AEL TRACKER *Army Equipment Loss*

**Efficient, Effective, Standardized Reporting, Collection,
& Visibility of Combat and Non Combat Losses**

A screenshot of the AEL Tracker application interface. The top navigation bar includes "AEL army equipment loss tracker" and "LOGSA". Below the navigation bar are links for "Home", "Records", and "Pick List Preferences". A callout box with a red border and the text "Choose Your 'Action'" has two red arrows pointing to the "Records" and "Pick List Preferences" links. The main content area displays "Welcome to the AEL Tracker Application" and "User Access Information" with a text box containing: "This application will allow authorized users to perform file maintenance on Army Equipment Loss Records. User authority for this application is controlled by LIW System Access Request (SAR). Only users authorized by SAR will have access to update these screens. Users with basic LIW logins have query access only." The bottom right of the interface shows "Log911" and "WebHelp".

The **Army Equipment Loss (AEL) Tool** is one of the Logistics Information Warehouse (LIW) menu selection items under the "Maintenance Management" tab.

- AEL Tracker enables the visibility of Army Combat and Non Combat Equipment Losses in the LIW with its automated interface to PBUSE, TEDB, and RIDB and provides the capability for Life Cycle Management Command (LCMC) Materiel Managers, who have update permissions in the LIW, to update Validation, Disposition, and Attrition Information
- AEL Tracker provides capabilities for Users with a Basic LIW login to View, Print, or Download to Excel
