

USAMC LOGISTICS SUPPORT ACTIVITY

LOGSA

LIW Logistics Information Warehouse

Army's Integrated Corporate Logistics Data Warehouse

The LIW provides streamlined web access to a host of essential Army logistics tools, including Parts Tracker, ILAP, WebLIDB, ARMT and the new LIW Business Intelligence (BI) dashboard tools. Features include:

- Single sign-on using AKO authentication, to all queries, reports and applications
- Redesigned System Access Request process with quick approvals
- Simplified menu structure for queries and reports
- User created toolbox of favorite queries and reports
- Single click access to essential logistics toolsets
- Research and download from SKOs On-Lin, Electronic Technical Manuals, PS Magazine
- Reference documentation and links to related official publications and websites
- Access BI decision support tools for efficient logistics management
- Retrieve accurate information from the Army's authoritative source of log data
