## Maximize Your SSA's Materiel Management Performance!

SSA Selection | Organization | Current Statistics | Metrics | Drivers | Current ABF | Inactive/Dormant SSAs

MySSA Warehouse Selection - v07.05.31  
What SSA (RIC) do I want to review?

This page allows the selection of a single SSA (RIC) for review and analysis in the MySSA dashboard reports.  
The MySSA analysis process is limited to only active SARSS-1 RIC's. An active RIC is defined by that warehouse having any activity in the SARSS-2AC (CTASC) AJUABF file in the last 180 days. The date of last activity for a RIC is determined by the most recent YB1, YB2, or YEB transaction for any line in the ABF for that RIC.  
SARSS-1 RIC's not found here may be located in the Inactive/Dormant reports on the last tab. Non-SARSS-1 RIC's are not tracked in the MySSA dashboard.

ACOM Installation Major Sub Cmd RIC

Click on [GO] to filter the list below for the selected organization level.  
You MUST select a single RIC and click on [GO] before changing to other tabs/pages in the MySSA dashboard!

Active SARSS-1 SSAs - v07.05.31

MySSA Tab Options to Key Features

Worldwide SSA Warehouse RIC Summary

Supports Comparative Analysis such as CWT

MySSA is one of Logistics Information Warehouse (LIW) Business Intelligence (BI) Dashboard Tools. MySSA provides management capabilities at all levels with options to tailor the selection of various SSA Materiel Management Process Reports.

- Provides the integration of Supply Chain Management with Organizational Performance Management information aligned with a SSA Focus View
- Provides Individual SSA Integrated Performance Metrics such as Distribution Statistics and Goals, Fill Rates, Changes in Size and Value of the Authorized Stockage List (ASL), Transaction Statistics, and Customer/Requisition Wait Time
- Provides Distribution Effectiveness at the BCT Level

Unclassified

## KEY FEATURES

- Provides Warfighters, Tactical Commanders, Material Managers, Supply Support Activities, LCMC Item Managers, HQDA Strategic Managers, and Soldiers at all levels with new SSA management capabilities
- Improves the Visibility of All Assets currently stored in Tactical SSAs
- Identifies Locations and Quantities of Critical Class IX in the Field
- Provides Visibility of Field Warehouse/SSA and DODAAC information, NSN Catalog attributes, and items with Zero Balance and Dues Outs
