The **Preset Equipment Assessment Tool (PEAT)** is one of LIW's menu selectable items under the Operations and Logistics Planning tab. The PEAT will...

- Provide the capability to incorporate and designate MEELS (Mission Essential Equipment List)
- Provide the capability to incorporate TPE quantities in the equipment vs requirements assessment
- Give Commanders, Managers, and Analysts the ability to easily identify equipment shortages for a deploying task force

Test drive the PEAT Operational Capability today, and provide feedback to your LOGSA Channel representative.

Force Protection Co (131 PAX) (FFR)

Instructions:

On this page you must designate which authorization documents will apply to each UIC.
 Note: All UIC's default to MTOE.
 To designate a MEEL as the authorization document:
 Select a MEEL from the "Available MEELs:" drop down box.
 Check the UICs the MEEL will be applied to.
 Click the "Apply MEEL to Selected UICs" button.
 Continue until you have made all the MEEL-to-UIC associations you want. Then click the "Save Profile and View Report" button.

The Preset Equipment Assessment Tool (PEAT) delivers an in-depth and detailed reporting application that provides much needed asset visibility and equipment assessments for a deploying force, thus allowing Commanders, Managers, Analysts and users at all levels to view critical information necessary for making informed sourcing decisions.
