Description:

Cost Analysis Strategy Assessment (CASA) 9.x is a Government developed Life Cycle Cost (LCC)/Total Ownership Cost (TOC) decision support tool for the USAMC Logistics Support Activity (LOGSA). This product presents the total cost of ownership including cost of Acquisition Research, Development Test, and Evaluation (RDT&E), acquisition/production, operating/support, and disposal. This product covers the entire life cycle of the system, from its initial research costs to those associated with yearly maintenance, as well as spares, training costs, and other expenses.

CASA 9.x is installed on a workstation. CASA is accessed as a desktop application. Data is entered manually into CASA, or data is imported from a spreadsheet formatted such as a Windows Excel file. Data is saved to the local hard drive, and all data stays internal to the local enclave.

Facts:

- This is a renewal for Certificate 201210241.

CoN Link: https://portal.netcom.army.mil/apps/networthiness/_layouts/NetcomCON/rqstcon2.aspx?requestId=23924

Restrictions:

1. CASA 9.x is restricted for use within certified and accredited networks and/or data centers having a current ATO.

POC: netcom.hq.networthiness@mail.mil / (520)538-1199

This Certificate of Networthiness is based on a trusted standardized platform, configured per FDCC. All patches and updates will be provided by the host network administrator (NEC or DECC) in accordance with all technical directives, mandates, and IAVM. This Certificate of Networthiness is no longer valid should the assessed configuration be significantly altered. Per Army Cyber Command guidance, all operating environment will implement HBSS capabilities. Upon expiration of this Certificate of Networthiness, this application must be reassessed to ensure it is still compliant with the GNEC architecture and is still networkworthy. Should this software version be upgraded prior to this expiration, the new version must be evaluated for networkworthiness.
