

Keepin' You Afloat

THE IDEAL LIFE PRESERVER
WILL KEEP YOU AFLOAT, SUPPORT YOU
AND YOUR GEAR, AND HOLD YOUR HEAD
UP IF YOU LOSE CONSCIOUSNESS EVEN IF
YOU'RE WEARING A HELMET.

The one that does all three is the new personal flotation vest. It comes in two sizes. NSN 4220-01-454-6135 brings a small/medium and NSN 4220-01-454-6136 brings a large/X-large.

The vest weighs 3 lbs and can be put on over the Kevlar vest and load-bearing equipment.

Maintenance

Hose the vest down with fresh water after use, especially if it has been exposed to salt water. Never use soap, detergent, or any chemicals like dry cleaning solvent to clean it. Salt water and cleaners can damage the fabric.

Air dry the vest completely before storing it. This reduces the growth of mold or fungus. Never put it in a dryer. Heat will shorten the vest's life.
