

# PICK THE RIGHT TIRE

THE WRONG TIRES...  
OR MISMATCHED  
TIRES... CAN  
CRIPPLE ME--  
AN' MAYBE  
YOU!

Using the right tires on your M809-series 5-ton truck is the only safe way to go. That's because mixing bias and radial tires or using tires of the wrong size can cause loss of driver control, poor handling and possible damage to vehicles.

So be sure your trucks use only the tires noted here:
