

M4s GO IN M16's RACK

Dear Half-Mast,
Where do we store
our M4/M4A1 carbines?
You can't lock them in
the M16 rifle's M12 rack.
MAJ S.B.

Dear Major S.B.,

You **can** lock M4/M4A1s in the M12 rack—after you add an adapter bar. Your support can make the bar, following the instructions on Page 2-70 in Change 4 to TM 9-1005-319-23&P, or order it with NSN 5340-01-230-3181.

Any M12 racks that are modified must be certified as secure. Contact your local TACOM-Rock Island logistics assistance representative or TACOM's James Rollins at (309) 782-1797, DSN 793-1797, or e-mail rollinsj@ria.army.mil for details.
