

# New Access to ETMs

In the past, the only browser you could use to access electronic technical manuals (ETMs) on the LOGSA website was Netscape Communicator 4.75 with 128-bit encryption.

Now, Internet Explorer 5.5 with 128-bit encryption has passed all security requirements and also can be used.

Whichever browser you choose, you'll find links to get a free download under the [software requirements](#) on the ETM welcome page at <http://www.logsa.army.mil/etms>.

If you have the Adobe Acrobat Reader installed on your computer, it's recommended that you remove it before downloading the browser. Then when the browser's loaded, reload the Acrobat Reader using the web site's link to Adobe. That way the reader is set up as a plug-in to the browser and allows you to view the electronic file quicker.

Remember, you'll still need a user ID and password to access any publication with restricted distribution. Get the online access form by clicking on [System Access Request \(SAR\)](#) at the website.
