FOLLOW THE **MAILING AND PACKAGING** INSTRUCTIONS IN PARA 8.2 OF TM 11-5825-291-13.

Not sure a repair is covered under the warranty? Send in the busted PLGR anyway. Chances are it's covered. And if not, they'll still repair it at "no cost" to your unit. CECOM will pick up the bill!

When you send your PLGR in for repair, **do not remove** the LS6 lithium storage memory battery, NSN 6135-01-301-8776. The memory battery preserves fault codes the manufacturer needs in order to diagnose and repair your PLGR.

But don't send the BA-5800 lithium main power battery, NSN 6665-99-760-9742 or 6135-01-440-7774. It's hazardous material and has special shipping requirements.

The PLGRs will be relabeled when they go through depot repair. A PLGR coming back from repair will carry a new label that indicates the PLGR is warranted, but does not carry an expiration date. For more information, check out the PLGR website at: <http://army-gps.robins.af.mil>.
