

Brake Pad Kit Use

HMMV BRAKE PADS GET REPLACED AS A SET OF FOUR—TWO EACH FOR BOTH REAR WHEELS OR BOTH FRONT WHEELS.

THAT MEANS WHEN YOU CHANGE THE PADS ON ONE FRONT OR REAR WHEEL, YOU **ALSO** CHANGE THE PADS ON THE OTHER FRONT OR REAR WHEEL, **NO MATTER** THE CONDITION OF THE OTHER PADS.

"THINK THAT'S WASTEFUL? IT'S NOT."

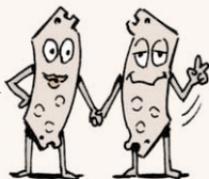

IF YOU DON'T REPLACE **ALL** FOUR FRONT OR REAR BRAKE PADS, YOU'LL GET **UNEVEN BRAKING** AND **ACCELERATED PAD WEAR**. EITHER WAY, IT'S A **SAFETY HAZARD!**

SCREEECH!

GET THE **4-PAD KITS** WITH THESE NSNs...
