

Use ISUs for Storage, Deployment

ISUs can be moved by forklift or helicopter and they're easily loaded onto airlift aircraft.

The containers also fit on 2½-ton and 5-ton trucks. They can be outfitted with low-speed or high-speed mobility wheel sets or corner casters for easy movement.

Here are some of the available ISUs. These are OD green, but they're also available in desert tan, gray, white, black or a custom color:
