

COVER YOUR EYES

WHEN YOU NEED HEAVY-DUTY EYE PROTECTION, YOU HAVE THREE CHOICES...

1. Ballistic/laser protective spectacles (BLPS) for soldiers who need corrective lenses.
2. Special protective eyewear, cylindrical system (SPECS) for soldiers who don't need corrective lenses.
3. Sun, wind and dust goggles (SWDG) for protection from the elements.

All protective lenses for BLPS, SPECS, and SWDGs provide ballistic fragment protection and are available in clear, neutral gray tint (for sun protection) and laser protective configurations. Here's what's available:

BLPS	
NSN 8465-01-	Item
416-4636	BLPS, clear
417-4004	BLPS, gray
416-3207	BLPS, 2-wavelength laser protection
416-3210	BLPS, 3-wavelength laser protection
417-9963	Carrying case
416-4637	Retainer strap

You must obtain BLPS corrective lenses through your post clinic. BLPS lenses can also be used with the M40A1 mask, but you will need a prescription lens carrier.

er, NSN 6540-01-264-1348 and adapter NSN 4240-01-389-7152 from the clinic for this application. While the prescription lens carrier can be adapted for use in the mask, it's best for operational readiness to keep two separate prescription lens carriers—one for the BLPS and one for the M40A1 mask.

IF YOUR VISION IS 20/20, TRY SPECS EYE PROTECTION...
