

CAN THE SPRAY-CAN ETHER!

VISIT ANY ENGINEERING BATTALION AND YOU'LL SEE SOME CONSTRUCTION EQUIPMENT WITH BUILT-IN STARTING AIDS.

THESE STARTING AIDS HELP YOU START THE ENGINE IN COLD WEATHER.

NOW LISTEN UP!

IF YOUR EQUIPMENT DOESN'T HAVE A BUILT-IN STARTING AID, JUST LEAVE IT ALONE. DON'T HEAD BACK TO THE WORKBENCH, GRAB A CAN OF ETHER SPRAY, AND GIVE IT A GO. SPRAYING ETHER WHERE IT'S NOT SUPPOSED TO BE USED WILL CRACK PISTONS, BEND RODS AND RUIN HEADS.

WHEN YOUR CONSTRUCTION EQUIPMENT **WON'T** START, HERE'S WHAT TO DO...

- Troubleshoot your vehicle according to its TM.
- Go easy on the starter. Never keep the starter engaged for more than 15 seconds.
- Have your mechanic replace an empty starting aid canister if the vehicle has one.
- If your vehicle won't start in three tries, call in your mechanic to find out what's wrong.
