

# You Can't Tug with Wrong Lug

**Y**ou'll have a hard time towing your howitzer or ammo carrier if the towing lugs, NSN 2540-00-031-7707, are broken. But broken lugs are almost unavoidable if your vehicle has the wrong lugs attached.

The wrong lugs are made of **cast** aluminum and will break under the stress of towing. They were accidentally mixed in with the **machined** aluminum lugs already in the supply system.

Right now, check the towing lugs on your vehicle. Cast aluminum lugs will be imprinted with letters and numbers.

If you find any cast aluminum lugs, tell your support. They can replace them.
