

AOAP...

TO SAMPLE, OR NOT TO SAMPLE

Dear Half-Mast,

In the last couple of weeks, I've been asked the same question several times: "Why do we do oil analysis on HMMWVs when they're not listed in Table 4-1 of DA Pam 738-750?"

Of course the answer is that the pam hasn't been updated in more than 8 years (1 Aug 94). But is there anything official that tells us to AOAP-test HMMWVs?

CW2 J.R.S.

Dear Chief J.R.S.,

You bet. The Logistics Support Activity's WebLOG web site provides a list of all tracked and wheeled vehicles in the AOAP program along with their sampling intervals. The HMMWV is on the list.

For tactical wheeled vehicles check out:

http://weblog.logsa.army.mil/aoap/aoap_tactical_.htm

For combat vehicles, watercraft, MHE equipment, construction equipment and generators, click on the links at the bottom of the page.
