

ELECTRONIC TRANSFER OF ULLS-A DA FORM 2410

NO MAIL AGAIN!?

SAVE TIME AND MONEY... SEND YOUR DA FORM 2410 TO AMCOM BY EMAIL.

THIS STUFF IS VERY IMPORTANT... SO READ IT!

Special Requirements and the 2410

For components that are repaired at AVUM, AVIM, or special repair activities, or for one-time repairs, units will manually complete all required entries on the 2410 Copy 2 and mail them to:

**Commander
U.S. Aviation and
Missile Command
AMSAM-MMC-MA-NM
5300 Martin Road
Redstone Arsenal, AL 35898-5000**

Components that are manually managed on DA Form 2408-16 or 2408-16-1 (such as an APU, OH-58D side beams/ traverse roof beams/corner mounts/ restraint spring assemblies, AN/ALQ-144(V), and -714A engines) will be reported using a hard copy DA Form 2410 with copies 1-3, IAW DA PAM 738-751.

Components that are returned to a repair facility, depot or supply system will have paper copies of DA Form 2410 copies 2 and 3 along with other applicable historical records attached to the component.

For more info, call DSN 746-5564 or 6696.

PS Magazine More Accessible

PS MAGAZINE IS NOW EASIER TO COPY AND EMAIL!

A few years ago the PS Magazine staff made the magazine more accessible by opening an Internet web page at:

<http://www.logsa.army.mil/psmag/psonline.htm>

Recently it became clear that users found it difficult to save or email an individual article. That's been fixed.

From PS 611 (Oct 03) on, each article has a link: "To get a copy of this article to send someone, click here." That click loads just that article.

Saving an Article

In the PDF menu bar, click on SAVE A COPY, choose your drive and folder, note the name of the article or change it, and click SAVE. It's done.

Email a Copy or URL

In the PDF menu bar, click on EMAIL and make a choice between sending just the URL link or a copy of the article. Fill in the email address, click SEND, and you're done.

That's it! Short, simple, easy. It does not get any better than that. Until we make another improvement, that is.

Forwarding DA Form 2410 info to the Aviation and Missile Command is now easier for Army aviation ULLS-A users. The mandatory weekly report is now emailed to:

automatedtammsa@redstone.army.mil

The process of preparing the 2410 as an email attachment is best done from a Quality Control (QC) workstation.

1. Access the HISTORICAL PROCESS (L) from the main menu.
2. Select (D) PRINT/REPRINT/PURGE 2410.
3. From the four options select WRITE ACTIVE 2410 LOG TO DISK.

- If no new components have been installed or removed, a report will be written to disk and an error message will appear with this message: UNABLE TO LOCATE FILE FOR COPYING: 2410LOG.ASC. Do not email this message to AMCOM.

- If the file is found, it will be written using the unit's UIC followed by a 2-digit number and a file extension ".001" in ASCII text.

- Create an email message and make the subject line read: ULLS-A DATA.

- Attach the ASCII file and send it to AMCOM.
