

# Weapon Card Goes Cyberspace

I GUESS MY DAYS ARE NUMBERED!

THESE DAYS YOU'RE NO PLACE UNLESS YOU'RE IN CYBERSPACE!!

After you get a user name and password, click on Enter AEPS. Select the Gun Card Firing Data button under Popular Applications. Next, click on Edit/View/Print in the left-hand column and follow the instructions for accessing the card for your gun tube.

DEPLOYED UNITS WHO DO NOT HAVE WEB ACCESS SHOULD MAIL IN THE DA FORM 2408-4 SO THE DATA CAN BE ENTERED INTO THE SYSTEM FOR YOU.

MAIL THE CARDS EACH APRIL AND OCTOBER FOR ACTIVE DUTY UNITS AND EACH OCTOBER FOR NATIONAL GUARD/RESERVE UNITS TO...

So you've just returned from the range. That means it's time to update your DA Form 2408-4, *Weapon Record Data Card*. Since the only way to determine gun tube life is to keep track of the number and types of rounds fired, the form's important. So time to grab your stubby pencil, fill out the form and mail it in, right?

Now, with the help of the Army Electronic Product Support (AEPS) website, the DA Form 2408-4 has entered the 21st Century. The new on-line system allows armor, artillery and mortar units to input firing and non-firing data directly into an electronic version of the 2408-4.

The electronic 2408-4 is now the required medium for reporting firing and non-firing data. This is important for your safety. All current tank, artillery and mortar weapons firing data has already been entered into the system, so all you have to do is print out a current card to take to the range with you. Then, when you return from the field, update the system on-line just like you currently do with the paper card.

THE NEW SYSTEM MEANS NO MORE LOST CARDS!  
AND IT'S EASY FOR A UNIT TO RESEARCH THE FIRING HISTORY OF ANY PARTICULAR GUN.
