

How to Improve AMCOM TMS

If you think you've found a mistake in a missile or aviation TM or you have a suggestion for improving a TM procedure, the U.S. Army Aviation and Missile Command (AMCOM) would like to hear from you. Feedback from equipment operators and maintainers helps AMCOM put out clear, accurate TM information.

A DA Form 2028 is how AMCOM wants to hear from you. The easiest way to submit a 2028 is via the Internet at <https://amcom2028.redstone.army.mil>. The website lets you track AMCOM's response to your 2028.

Or you can look in the back of your TM to find a blank 2028. Then either...

- mail it to
Commander
U.S. Army Aviation and Missile Command
ATTN: AMSAM-MMC-MA-NP
Redstone Arsenal, AL 35898-5000
- fax it to DSN 788-6546/
(256) 842-6546
- or email it to
2028@redstone.army.mil
