

YOU-YES, YOU-WATCH UOC

Dear Editor,

In my work in Southwest Asia, I've run across armorers ordering the wrong parts for their M16s or M4s. I don't think they're paying attention to the UOCs. Can you remind them?

Editor's note: Of course. UOC stands for "usable on code" and is listed in the parts TM in the description column for each item. It's important to pay attention to the UOC because otherwise you could end up with an M16A4 barrel assembly for an M16A2.

M16 AR7	M16A3 AW4	M4A1 AY6
M16A1 AR6	M16A4 AZ1	
M16A2 AR8	M4 AS1	

Remember, for M16/M16A1 parts look in TM 9-1005-249-23&P and for the M16A2/A3/A4 and M4/M4A1 versions look in TM 9-1005-319-23&P.
