

PLGR, DAGR...

WHEN WE NEED HELP...

WHO YOU GONNA CALL?

The legacy global positioning system (GPS) receivers—the standard and enhanced PLGR—and the new GPS receiver—the DAGR—are in the field and being used.

When one system replaces another, questions often are asked about maintaining the old system, and fielding, programming and training on the new system.

WHEN YOUR UNIT ASKS QUESTIONS, WHO WILL GIVE YOU THE ANSWERS?

WE'RE GLAD YOU ASKED.

Have a question that doesn't seem to fit in any of the below categories?

Then call the GPS help line at DSN 468-3518 or DSN 992-4733.

QUESTIONS ABOUT

WHO TO ASK

equipment authorization, maintenance status, fielding and new equipment training (NET)
