

Send Them In for Repairs

RReal time coordination between all the services is what the AN/USC-55A, NSN 5895-01-443-9072, and AN/USC-55B, NSN 5895-01-443-8178, commander's tactical terminal three channel (CTT3) are all about.

But a busted terminal can't coordinate worth jack! (Or with him, either!)

IF YOU'RE IN IRAQ, AFGHANISTAN OR KUWAIT, SEND THE TERMINAL TO A REGIONAL SUPPORT CENTER (RSC). THEY'LL TEST IT, TELL YOU WHAT'S WRONG, **AND** GET IT FIXED.

HERE ARE THE CENTERS AND THEIR POCs:
