

# AFS Replaces GVO, BVO Boots

THE ALTERNATIVE FOOTWEAR SOLUTION (AFS) IS REPLACING THE GREEN VINYL OVERSHOE (GVO) AND BLACK VINYL OVERSHOE (BVO) AS THE CHEMICAL PROTECTIVE BOOT.

The AFS is a lightweight chemical and biological agent protective overboot made of compounded butyl rubber. It should provide 24 hours of protection when exposed to chemical agents in liquid, vapor or aerosol form. AFS can be worn for 45 days with all current and future chemical/biological clothing.

AFS has an anti-slip, ridged tread pattern for better traction and a slip coat treatment on the inside of the boot for easier donning and doffing. The boots have three sets of buttons with butyl rubber straps to secure the boots.

THE AFS COMES AS A PAIR OF RIGHT AND LEFT BOOTS IN THESE SIZES...

Size	NSN 8340-01-	Combat Boot Size Correlation
X-small	553-6290	3.5-5.5
Small	536-5413	6-7.5
Medium	536-5415	8-9.5 regular
Large	536-5416	9.5 wide-11.5
X-large	536-5419	12-14
XX-large	553-6283	14.5-17

AFS is vacuum packed to take up less space.

Don't throw away your GVO or BVO. They can be used as cold/wet weather boots.

AFS training and general information can be found at:
