

M1114 Up-Armored HMMWV...

Impact Wrench NSNs

Dear Half-Mast,

We have to be "NASCAR quick" out there to change tires on our M1114s. That's why I'm searching for a good portable impact wrench, but I haven't found one yet. Can you help?

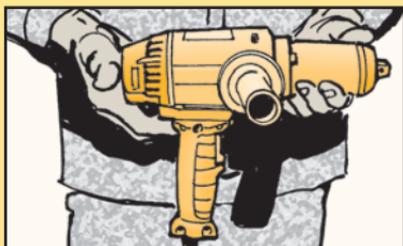

1LT L.A.

Dear Lieutenant L.A.,

Either NSN 5130-01-536-6492 or NSN 5130-01-363-0964 will get you a good portable, electric impact wrench. But you'll need to buy a $\frac{7}{8}$ -in socket to remove the lug nuts since the socket you need isn't provided. Use NSN 5130-01-400-0177 to get the socket.

The additional authorization list (AAL) in TM 9-2320-387-10 will be updated to reflect these NSNs.

Half-Mast

NSN 5130-01-536-6492 or
NSN 5130-01-363-0964 brings a good
portable, electric impact wrench
