

M1A1, M1A2 SEP Tanks...

MY GUN TUBE HAS FIRED ITS LAST SHOT!

YOU BETTER TURN IT IN FOR A NEW ONE!

SKRITCH SKRITCH

ACCORDING TO THE TM, YOUR GUN TUBE NEEDS SPECIAL HANDLING!

BUT I'M NOT SURE WHAT TO DO!?

GETTIN' RID OF GUN TUBES

Dear Half-Mast,

Our unit has some 120mm tank gun tubes, NSN 1015-01-212-8575, that are ready for disposal. But the SMR code shown on Page 95-1 in TM 9-2350-264-24P-2 and WP 0059 00-3 in TM 9-2350-388-24P-2 has our hands tied.

The SMR code is PAFZA. The **A** at the end of the SMR code means that each gun tube "requires special handling or condemnation procedures because of specific reasons (e.g., precious metal content, high dollar value, critical material or hazardous material)."

TM's LIST THE SMR CODE AS PAFZA.

SECTION II	(1) ITEM NO.	(2) SMR CODE	(3) NSN	(4) CAGEC	(5) PART NUMBER
	1	PAOZZ	5310-12-189-0271	19206	12529750
	2	PAOZZ	1015-12-178-9543	19206	12529760
	3	PCOZZ	5331-01-498-9993	19206	12528494
	4	PAOZZ	1015-01-239-0614	19206	12529312
	5	PAOZZ	3040-01-164-9644	19206	12529669
	6	PAOZZ	5315-12-162-9166	19206	12529715
	7	PAFZZ	5305-12-157-6721	D8286	DIN7984-M8X16-8-9-ASP
	8	PAFZZ	1015-12-178-9536	19206	12529765
	9	PAFZZ	1015-01-165-4845	19206	12528510
	10	PAFZA	1015-01-212-8575	19206	12528311
	11	PAFZZ	5305-12-179-5199	19206	12529763
	12	PCOZZ	2640-01-255-3347	19207	5705438

STOP PIECE BREECH MECHANISM (ELECTRO-OIL) PARTS KIT (AUG 1970) (101010) (TUBE CANNON) SETSCREW PARTS KIT (AUG 1970) (101010) (TUBE CANNON) ITEMS APPLICABLE TO THIS MANUAL ARE LISTED WASHER LOCK (48) 139-33

So how do we dispose of these gun tubes? Can you lend a hand, Half-Mast?

MSG M.A.F.

Dear Master-Sergeant M.A.F.,

Good news! The SMR code for the gun tubes is being corrected to PAFZZ. That means the gun tubes can be condemned and disposed of at the Field Maintenance level and require no special handling or procedures.

The recoverability code has already been changed in FED LOG and WebFLIS (<http://www.dlis.dla.mil/webflis/>). So just make a pen and ink change to your parts manuals until they can be updated.

Procurement Data

THE RECOVERABILITY CODE HAS BEEN CORRECTED IN FED LOG.

Evaluation and inspection procedures are in App B of TM 9-1000-202-14, Evaluation of Cannon Tubes (Feb 99 w/Ch 4, Dec 06).

The 120mm cannon tube has a demil code of **D**, so you should follow the demil, disposal and condemnation procedures in App 1 and 7 of DoD 4160.21-M-1, Defense Demilitarization Manual (Oct 91 w/Ch 1).

Make sure you close out the DA Form 2408-4, Weapon Record Data Card, for each condemned gun tube. This is done at the AEPS gun card website:

<https://aeps2.ria.army.mil/commodity/guncard/index.cfm>

Then submit the gun card following the guidance in Chap 5 of DA Pam 750-8.

Condemned tubes should be turned in to your supply support activity. They will, in turn, process and turn in the condemned tube to the nearest Defense Reutilization and Marketing Office (DRMO).

The disposal service representative (DSR) is the direct link between customers and the DRMO. They can provide help by phone, email or in person. To find your DSR, check out their website: <http://www.drms.dla.mil>

For more information, check out TACOM Field Alert #09-02:
