

Stryker RWS and CROWS Covers **NOT** the Same!

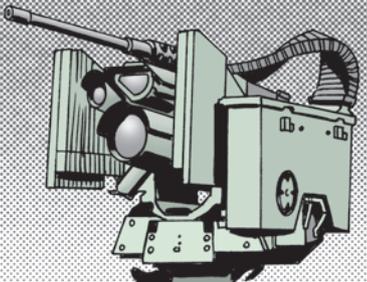

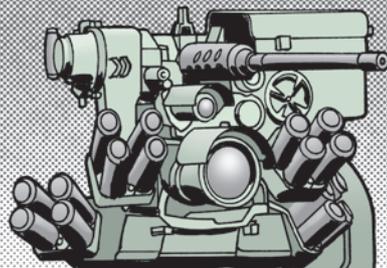

WE MAY *SEEM* INTERCHANGEABLE, BUT WE'RE *NOT!*

DON'T TRY TO *SUBSTITUTE* US FOR EACH OTHER!

Some units are ordering the Stryker RWS (remote weapon system) cover for the CROWS II cover or vice versa. They shouldn't, because these covers are **NOT** interchangeable. Order the green RWS cover with NSN 2590-25-150-4724. It's provided by General Dynamics Land Systems (GDLs) under their contractor logistic support agreement with PM Stryker. Order the tan CROWS II cover with NSN 5340-25-160-3971.

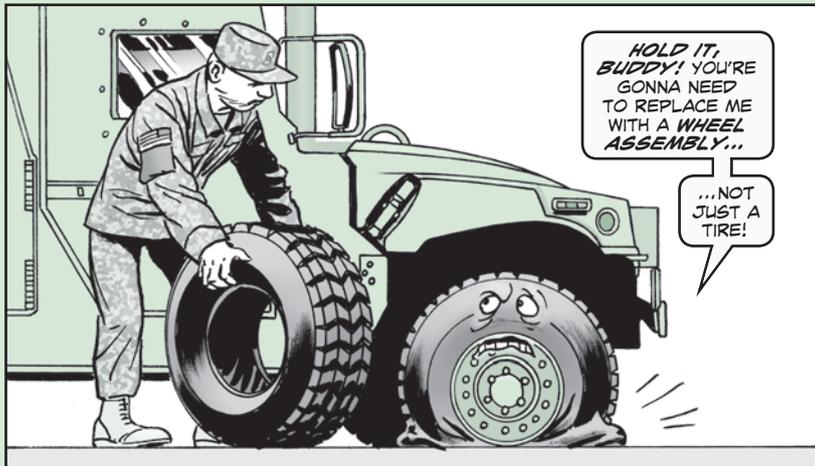

Got RWS cover questions? Contact Rich Harris at DSN 793-6481, (309) 782-6481, or email: richard.j.harris@us.army.mil

For CROWS II cover questions, contact Charlene McIntyre at DSN 793-7389, (309) 782-7389, or email: charlie.mcintyre@us.army.mil

Wheeled Vehicles...

TRANSITIONING FROM TIRE...

HOLD IT, BUDDY! YOU'RE GONNA NEED TO REPLACE ME WITH A **WHEEL ASSEMBLY...**

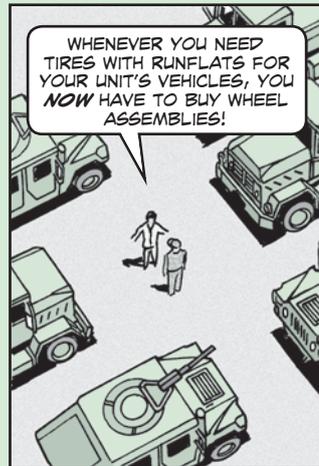

...NOT JUST A TIRE!

...TO WHEEL ASSEMBLY!

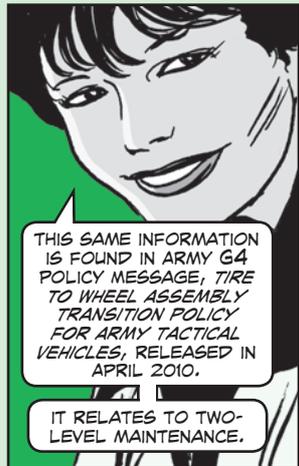

ARE YOU IN AN ACTIVE ARMY UNIT?

YES, MA'AM.

WHenever you need tires with runflats for your unit's vehicles, you **NOW** have to buy wheel assemblies!

THIS SAME INFORMATION IS FOUND IN ARMY G4 POLICY MESSAGE, **TIRE TO WHEEL ASSEMBLY TRANSITION POLICY FOR ARMY TACTICAL VEHICLES**, RELEASED IN APRIL 2010.

IT RELATES TO TWO-LEVEL MAINTENANCE.
