'TILL YOU SEE
WHAT I CAN
DO!

Handy-Dandy Pocket Tool

Keeping a multipurpose tool around when doing maintenance really helps.

If you need a stainless steel pocket tool with just a knife and pliers, order one with NSN 5110-01-346-5339, or order the flat black version with NSN 5110-01-346-5341.

IF YOU WANT MORE CHOICES, YOU CAN ORDER THE GRANDDADDY OF ALL-IN-ONE POCKET MULTIPURPOSE TOOLS, NSN 5110-01-451-4945, WHICH INCLUDES THE FOLLOWING...

- Scissors
- Large, flat-tip screwdriver
- Medium, flat-tip screwdriver
- Cross-tip screwdriver
- Needlenose pliers
- Serrated-blade knife
- Bottle opener
- Can opener
- Carbide file/sharpener
- Lanyard ring
- Awl

Carry the multipurpose tool in a pocket or, if authorized, wear it on your belt using the black sheath that comes with it. Appendix A of CTA 50-970 is your authority for ordering.

Remember, though, while it may be OK to use a multipurpose tool during maintenance, don't use it for critical repairs. Always use the correct tool to complete a maintenance task like your IETM/manual says.
