I MUST BE DREAMING!
THESE INTERLOCKING
CONTAINMENT PANS ARE
JUST WHAT I'VE BEEN
LOOKING FOR!

DREAM
DRIA
PAN'S

Drip pans that really work well come with NSN 4940-01-535-7654. That's because they are flexible and can interlock. They are so durable, they can survive being run over by a heavy vehicle! Plus, they're good for big systems.

The interlocking containment pan is made up of 36-x36-x2-in squares with interlocking sides that allow you to make the overall pan in different shapes and as large or as small as you need.

Interlock pans to make size you need

When you place your order, you'll get a pack of 10 pans.

Class IX Safety Glasses

Mechanics will probably click [Like](#) on Facebook if they see a good pair of safety glasses. They're easier to wear than safety goggles, but they can get scratched up a lot. So if you need to order more class IX safety glasses for the wrench turners in your unit, use NSN 4240-00-990-8905. However, these glasses do not substitute for ballistic eyewear.

Up-armored HMMWV VEE/IVEE Windshield Washer Nozzle

Need the NSN for the windshield washer nozzle on your up-armored ECV HMMWVs with VEE and IVEE windshields? Use NSN 2540-01-596-1571. TM 9-2320-387-24P lists NSN 2540-01-436-4236, but that nozzle only works on HMMWVs without the egress windshield.
