

MILVAN...

HAVE I GOT SOME
STORAGE SOLUTIONS
FOR YOU!

Solutions for Storage

An organized container in the right place makes a big difference when it comes to completing or sustaining a mission.

Here are a few new products that can improve vehicle recovery, logistical support and transportation of supplies.

Collapsible Container System

A plastic, weather-resistant collapsible container kit for short- or long-term storage comes with NSN 8145-01-562-9283. The kit has two containers, weighs 115 pounds and measures 48x40x30 inches. It stores conveniently inside a MILVAN.

All it takes is a forklift operator and two ground guides to load an entire MILVAN with 15 kits (30 containers). No blocking or bracing is needed. The kit's containers come with four custom-sized pallets, two collapsible sleeves, and eight ratchet-straps, NSN 8145-01-522-8341. It's designed to carry up to 800 pounds of cargo. The containers will last many years even with daily use.

PS MORE

Cargo Tie-Down Kit

Scattered cargo is the last thing a driver wants to see in his rearview mirror.

To secure a load in place, use a 1-in cargo strap tie-down kit that comes with NSN 8145-01-522-8344. This kit includes a storage bag, four green nylon 1 3/4-in straps with fixed double-bar D rings and a 2-in snap hook.

Also included with this kit is a 1 3/4-in x 20-ft nylon ratchet strap with a fixed 2-in snap hook. All of these items fit quickly back into the storage bag after each mission.

Cargo tie-down kit can be used to secure load to a vehicle or flat rack

MILVAN Strap Kit

The MILVAN strap kit, NSN 8145-01-524-7267, is designed specifically for the 20-ft MILVAN. One storage bag comes with eight 1-in cargo tie-down straps, and sixteen 1-in x 14-ft ratchet straps.

The kit's second storage bag has eight 1 3/4-in cargo tie-down straps and eight 1 3/4-in x 20-ft ratchet straps.

MILVAN strapping kit secures load inside MILVAN

Vehicle Recovery Strap

A 3-in x 27-ft vehicle recovery strap with shackles is now available with NSN 8145-01-533-5613.

The break strength of the recovery strap is 43,000 pounds. It's designed to be used as a cargo/vehicle recovery strap for short distance recovery operations only—not long distance towing. Also, this strap is not intended as a replacement for the Army's official tow bars.

Vehicle recovery strap is for short distance recovery only
