**H**elp is on the way!

Don't get trapped in your MRAP in the event of a vehicle rollover or explosion. For emergency entry, NSN 2540-01-574-0491 gets a universal combat lock tool (UCLT). It can be used by rescuers to open the combat locks on each of the different MRAP vehicles.

Just insert the tool into the vehicle's combat lock housing and turn it 90 degrees to disengage the lock.

Keep the UCLT in the vehicle's exterior BII storage box. That way it can be grabbed quickly in an emergency.
