

GCSS- Army Forum Takes Flight

SustainNet recently added a new subforum to its ranks to help prepare everyone for the rollout of the Global Combat Support System-Army (GCSS-Army). GCSS-ArmyNet supports fielding, training and sustainment of the future single integrated logistics system.

GCSS-Army will affect every supply room, motor pool, support repair shop, warehouse and property book office in the Active Army, Guard and Reserve. The new forum gives GCSS-Army's future users a chance to discuss changes and challenges, and to ask questions of subject matter experts.

GCSS-ARMY
COMPONENTS
AND FORUM
TOPICS
INCLUDE...

- Maintenance
- Unit supply
- Property book
- Human resources
- Supply support activities
- Force element
- Finance
- Distribution
- Ammunition

The forum is a springboard to other resources, like the GCSS-Army Knowledge Center, strategic communications and briefings, and virtual meetings and training sessions.

You must join GCSS-ArmyNet before reading or posting to the forum. Visit:
