Logistics Management...

Count Four and Ride the Wave!

SOMETIMES, DOING A FEW SMALL THINGS THE RIGHT WAY NOW CAN MAKE LARGER EVENTS GO SMOOTHER LATER.

IF YOU'RE A UNIT SUPPLY SERGEANT OR SAMS-E OPERATOR PREPPING FOR WAVE 2 MIGRATION TO GCSS-ARMY, HERE ARE FOUR SIMPLE TIPS TO MAKE THE TRANSITION EASIER...

- Make sure that your unit's six-character unit identification code (UIC) in PBUSE matches the six-character UIC in SAMS-E. Be sure the UIC is registered in DRRS-A.
- Check that serial numbers on all serial-numbered items in SAMS-E match the serial numbers in PBUSE. Note that GCSS-Army will use only the last 18 characters of serial numbers from PBUSE and SAMS-E.
- Ensure any end item code (EIC) authorization in PBUSE matches the EIC assignment at the serial number level in SAMS-E. If there is a mismatch and the item is a system, the system data will not migrate to GCSS-Army.
- Verify that all equipment and vehicles that need maintenance services performed are scheduled in SAMS-E.
