

THE WHOLE KIT 'N CABOODLE

Are you a mechanic tasked to do services on one or more of your unit's vehicles? If so, the work you need to do likely exceeds the amount of time you have to do it in.

If you're really lucky, your motor sergeant might give you a list of the NSNs you need. If not, you'll have to search the TMs yourself and figure out which parts you need. Then you'll have to see if the parts are on hand or need to be ordered. Translation: A lot of running around and time that doesn't involve actual wrench-turning.

Or, maybe you've started a service, but discovered a part is missing. Maybe it didn't get ordered, maybe it's lost, or maybe someone else needed that same part and nabbed it before you did. More precious time down the drain!

Wouldn't it be great if all you had to do was order one NSN to get all the parts you need? And wouldn't it be doubly sweet if they all came in one package?

Good news. You can get parts that way—in a kit. Kits allow you to order most or all you need for your services, rebuild or Reset programs with one NSN, and get it all shipped in a single box or package. Open the kit and put on the replacement parts. Done.

How do you find these kits? That's the easiest step of all. Just go to DLA's Land Kitting web page with your **CAC**:

<http://www.landandmaritime.dla.mil/programs/kitting/Default.aspx>

You'll see several ways to search for kits. One way is by system. For example, if you're looking for a HMMWV kit, go to the drop down box in the Search field and select Weapon System. Go to the Search Text box and type in HMMWV. Click on **Search**.

Kitting Home | Search Kits | Request a Kit | Points of Contact

Screenshot of kit ordering process

All the current kits for HMMWV variations will appear showing the nomenclature, description, NSN, number of component lines, shelf life, source of supply, price and the amount of stock on hand. Want to know what's in a kit? Click on the nomenclature and it lists all the subcomponents.

Got an idea for a land-based weapons system kit that you think would help you and other Soldiers? Just go to the **Request a Kit** page on the website and enter the info requested. The DLA Land Kitting Team will help you out. They'll even put the kit together for you.

Questions or need help finding a kit? Contact the Land Kitting Team at DSN 850-1759, (614) 692-1759, or email: land.kitting.team@dla.mil
