

GOOD NEWS!
WE CAN WORK
TOGETHER
NOW...

...AS LONG
AS WE GET
THE RIGHT
KIT!

M240L Can Be Mounted on HMMWVs

Units are now authorized to mount the M240L machine gun on M1151A1 and M1114 HMMWVs.

To mount it on the M1151A1, you'll need the objective gunner protection kit, NSN 2540-01-558-5467.

For the M1114, use the objective gunner protection kit, NSN 2540-01-543-8325.

WHERE DO I GET ARMS ROOM LOCKS?

Dear Half-Mast,

What locks meet the security requirements for the arms room? I know you can't just use any locks.

SSG G.M.

Dear Sergeant,

Good question! The weapons racks need approved low-security padlocks. NSN 5340-00-158-3805 brings a padlock that will work with most weapons racks. The exception is the MK 19 rack, which needs a padlock with a longer shackle. NSN 5340-01-408-8434 gets what you need.

The door to the arms room vault requires a high-security padlock. Go to the Department of Defense Lock Program website for a list of all available low- security and high-security padlocks:

<https://www.troopsupport.dla.mil/hardware/Locks/>

Standard
low-security
padlock
works for
most racks

MK 19
rack needs
padlock
with longer
shackle
