

Even if you have only a few masks that need the clamps, you'll find it's a lot more cost-effective to order the tool and clamps than ordering new facepieces:

- **small**, NSN 4240-01-415-4517, \$252
- **medium**, NSN 4240-01-415-4518, \$247
- **large**, NSN 4240-01-416-0430, \$248

What you should **never** do is try to replace the clamps with ones you find locally. Only the Digi-Key clamps have been tested for strength and durability.

Things are simpler for MWO 3-4240-346-20-2. If the outlet valve disks in your masks are green, you already have the new disks. If they aren't, order the disk with NSN 4820-01-502-7372.

New outlet valve disk comes with NSN 4820-01-502-7372

M50/M51
Masks...

NO CARDS IS A LOSING HAND!

UH-OH! MY OPERATOR CARDS ARE GONE!

TALK ABOUT A LOSING HAND.

Ananything that comes with your M50/M51 joint service general purpose mask (JSGPM) needs to stay with the mask.

The M50/M51 operator cards, NSN 7690-01-529-1398, make it easier to PMCS and use your mask.

Also make a point of keeping the mask's waterproofing bag, NSN 4240-00-377-9401, and faceform, NSN 4240-01-529-8338. Without the waterproofing bag, your mask has less protection from moisture. The faceform is required for long term storage.

Operator cards missing?

Operating Features

Mask: JSGPM, Field, M50 and JSGPM, CVC, M51

The M50 and M51 masks Provide: a maximum level of protection to the face, eyes, and respiratory system from Chemical-Biological (CB) agents, riot control agents, radiological particulates and Toxic Industrial Chemicals (TIC).
