

6K VRRT Forklift...

Dear Half-Mast,

I'm really scratching my head on this one. Our unit needed new steering cylinders for the MHE 269 6K variable reach rough terrain (VRRT) forklift. So I ordered the cylinders listed as Items 1 (NSN 3040-01-454-3531) and 4 (NSN 3040-01-454-3533) in Fig 127 of TM 10-3930-660-24P (Aug 12).

ATLAS cylinders are too short for 6K VRRT forklift

When they came in, the cylinders were two inches too short! In fact, they appear to be the ones used on the 10K ATLAS forklift.

Can you help us out with the right NSNs for these cylinders?

Mr. K.Y.

Dear Sir,

You're right. Those are the ATLAS cylinders. An error was made when the 6K forklift's parts manual was updated.

The 6K VRRT forklift's left-front and right-rear cylinder comes with NSN 3040-01-294-3441. Get the right-front and left-rear cylinder with NSN 3040-01-593-8783. Make a note until the TM is updated.

Half-Mast
