

# ORDER THE RIGHT AIR COMPRESSOR

HEY, YOUR NEW AIR COMPRESSOR JUST CAME IN.

I HOPE YOU GOT THE *RIGHT* ONE. I HAVE TWO DIFFERENT ONES, Y'KNOW.

**M**echanics, there are two different air compressors used on the H100C 5-yd scoop loaders. Which one you order will depend on the age of the scoop loader.

For scoop loaders with serial number 15005 and below, order the model 500-series air compressor, NSN 2530-00-349-9100. It's shown as Item 1 in Fig 88 of TM 5-3805-255-24P (Feb 09).

But for scoop loaders with serial number 15006 and higher, you'll need the model 501-series air compressor. It's listed as Item 1 in Fig 89 of the TM, but **do not** use the NSN you'll find there.

Instead, order by CAGE 0BAH3 and part number. A new compressor comes with PN 689250C91. Get a rebuilt compressor with PN 735043C91.

Order Model 500-series compressor for engine serial numbers 15005 and below...

...and Model 501-series for engine serial numbers 15006 and above

Not sure where to find the engine's serial number? It's on the side of the block below the cylinder head.
