

U.S. ARMY

12 DEC 2018

Sunset of Web Logistics Integrated Database (WebLIDB) from the Logistics Information Warehouse (LIW) Portal **Strategic Communications Document**

On 21 December 2018, the WebLIDB tool will be retired as the LIW Portal is sunset and taken offline. Once retired, users will no longer be able to access the WebLIDB tool via the LIW Portal or any saved links.

Users should utilize the recently released Logistics Modernized Reporting (LMR) tool to address their reporting requirements.

LMR can be accessed via the new Army Enterprise Portal at <https://enterprise.armyerp.army.mil/> and is available to all LIW basic-access users.

If you have any questions or concerns, please see below for the LOGSA Service Desk contact information.
